I am writing in response to your Information request:

**ER66085**

Langworthy Lane in Holyport floods whenever there is heavy rain. The residents are trying to get to the bottom of this to understand if they can do anything to resolve it, and hence would like to request some information from the council please.

There are three gullies in Langworthy Lane, between the junction with Gays Lane and Peters Lane. Approximately they are:
1) Opposite the front door of Lynden Barn
2) Opposite the driveway of Lynden Barn
3) Opposite the driveway of Lynden Hall/Lynden Manor

The information we would like is:
- Is maintenance and clearance of these gullies the council’s responsibility?
- Please could we have the dates for each of the last three occasions these gullies were cleared out?
- Where do these gullies flow to; a soakaway, ditches, or public drain?
- Could you provide a plant map showing where they drain to please?

**Response:**

- The gullies are the responsibility of RBWM to maintain.
- The last three recorded visits that can be identified are 06/03/14, 22/03/11 & 22/03/10
- The gullies are connected directly to the ditch on the north side of the road.

An extract taken from the Borough’s highway drainage records is attached showing the approximate location of the gullies. Connections are not however shown on the records for this location

If you are unhappy with the information we have provided in response to your request please write to:

Information Management Team Manager
Royal Borough of Windsor & Maidenhead
Town Hall, St Ives Road
Maidenhead
