Further to your Information request ER67073 please find your questions and our responses below:

1. In conjunction with Bisham’s flood champion I am researching the details of Marlow Arch which is Bridge 636 in the portfolio of bridges for which the RBWM has responsibility. It is the bridge leading up to Marlow suspension bridge on the RBWM side of the river. The white-painted east-north-eastern parapet of the bridge is between the two existing main entrances to The Compleat Angler hotel.

I should be grateful if you would provide me with copies of any plans, sections and maps of the bridge that the RBWM holds and the records of the statutory inspections that it has undergone whilst in the care of the RBWM.

2. I understand that the RBWM is responsible for the management and mitigation of groundwater flooding in Bisham. The Environment Agency has recently published an incorrect historic flood map of Bisham which wrongly shows properties that did not flood in 2003 as having flooded and properties that did flood in 2003 as being outside the flood envelope. Can you please provide me with the maps on which the RBWM relies to inform its strategy to manage and mitigate groundwater flooding in Bisham?

Response

Please see attached also I have been instructed to give you this web address which should help you with your query. http://www.geostore.com/environment-agency/

If you require translation of the information you have been sent please do not hesitate the contact us.

If you are unhappy with the information we have provided in response to your request please write to:

Information Management Team Manager
