   **Response:** No. The redesigned JSNA is a new style web based version for 2013/14 and beyond. It has been developed using a phased approach. Phase Three: Build on other local information/data to provide details of health and wellbeing inequalities. Phase Four: Review whole web based JSNA and refresh data and content.

   In terms of Long Term Conditions specifically it was agreed that this section would completed during Phase 2 and 3 of the programme of development to ensure data and information was captured to reflect local need.
