Further to your Information request FOI66759 please find your questions and our responses below:

My question concerns the allocation of recycling points.

Are the points calculated based on the weight of an individual household's blue bin or are they done on a street or area basis?

Reward points are calculated on a households individual recycling effort for all homes that have an individual blue wheelie bin. Reward points are calculated on a collection round basis for those households within the Borough that have communal recycling containers or those that are unable to accommodate wheelie bins and have recycling boxes. Further information regarding the rewards for recycling scheme is available on the RBWM website:
