Further to your Freedom of Information request FOI67549 please find your questions and our responses below:

I am reporting on the primary offer day and wondered if you could tell me which primary has the smallest ‘catchment’ area and what that distance-to-school is this year. I.e. which schools do pupils have to live closest to in order to get in and what how far from the school does the furthest child who was offered a place (on distance) live.
I appreciate you may only have figures for maintained primaries.

For Primary offer day 2015, Lowbrook Academy admitted to the closest distance within catchment – the further child offered a place lived 0.455 miles away. The next Primary, to admit within the closest distance in catchment was Oldfield Primary – furthest child admitted lived 0.575 miles away.
