I am writing on behalf of David Davies to respond to your information request:

1. The latest school roll forecasts or projections:
   a. showing the forecast figures for each school managed by this education authority;
      The borough does not forecast pupil numbers for individual schools.
   b. showing the forecast data for each year group within each school;
      The borough does not forecast pupil numbers for individual schools.
   c. indicating the date when these forecasts were last updated;
      The borough does not forecast pupil numbers for individual schools.
   d. indicating whether pupil yield figures from approved planning applications are included in forecasts – and the latest date when consented applications were included.
      Pupil yield figures from approved and likely future new housing are included in the forecasts. The housing element of the 2015 forecasts is based on housing data provided by planning in August 2014 and in March 2015.
   e. indicating the official capacity of each school managed by this education authority, and the year when each of these school capacities was last checked or updated.
      The borough is required to update Net Capacity figures annually and submit to the DfE as part of the SCAP (School Capacity) return. That return was submitted on Wednesday 29th July, and includes all school Net Capacities. The attached SCAP15_Capacity_DataSummaryReport.xls provides the Net Capacity for each school in column L.

2. The historical school roll data for each year group within each school managed by this education authority between 2000 and 2015.
   Attached as HistoricalPupilNumbersbyYearandYearGroup.xlsx

3. The details of any current planned changes in schools’ capacity or new schools to be built in this education authority’s area and when they are due to be operational.
   The local authority is also required to submit to the DfE as part of the SCAP return a list of schools where new places are to be added. I attach the RBWM list here as Capital_Spend_and_additional_places_SCAP_2015_v1.xlsx. The last four lines show the projects to be completed in September 2015 and 2016. Other school places are expected to be added, in 2016+, but have not yet received final approval.

   One new school is expected to open in the borough – Forest Bridge School, which is for children with Autistic Spectrum Disorder. The school is expected to open in September 2015.
