

Get the recognition you deserve

If you do great work, this could be you.

Enter your local & regional LABC Building Excellence Awards now

LABC's Building Excellence Awards are all about the essence of good buildings. Our finalists are not judged on architectural beauty, but on the "Excellence" shown from a construction and technical Building Control point of view. Our awards showcase buildings and design teams that have had to tussle with technical issues, difficult sites, innovative and creative solutions.

Why does LABC have awards?

LABC is the largest building control network in England and Wales. Our 3,000 surveyors provide over 70% of all plan checking and site inspections because most customers prefer LABC. Our customers tell us they respect our independent advice and find us good value for money because we get involved and actually turn up when people need us.

Every year we put forward around a thousand of our customers and their projects for local, regional and national awards. We do this because we believe in quality work and we want to see it recognised. You can be a part of this.

Categories for all types of work

Any LABC customer can enter. LABC works with small local firms through to national PLCs. Size doesn't matter – it's all about the work. We use strict criteria and judging panels, including independent industry experts from other professional institutions and trade bodies.

Categories include: domestic work, self-build, low volume new homes, high volume new homes, best sustainable project, conversion and change of use, small scale commercial, large commercial, best public building and best partnership. Our local and regional awards feed directly into the LABC National Awards in London where we celebrate the winner of winners.

Site Manager of the Year

New for 2012, LABC Warranty is delighted to announce the launch of our regional and national Site Manager Awards programme. These awards will run in addition to the established LABC Warranty Excellence Awards.

All Site Managers who are working on sites of 3 or more units registered with LABC Warranty will be eligible for these awards. Site Managers will be nominated by their LABC Warranty Site Audit Surveyor and will be assessed against a formal set of criteria.

Regional finalists will be invited to attend the relevant LABC Regional Building Excellence Awards as guests of LABC Warranty where the winner will be announced. The winner from each region will then go forward to our National Site Manager Award, to be announced at the LABC National Building Excellence Awards ceremony in November.

It's a great night for all.

The 2012 National Awards – there is only one way to enter

The LABC 2012 National Building Excellence Awards will be held at The Brewery in the City of London on 13th November. To get there you have to go through the local and regional judging process. The winners of each category nominated by the 12 LABC regions go forward to the National Awards as finalists.

You can't nominate yourself, but if you've completed a building project using local authority building control during 2011, then ask your LABC surveyor to enter your project. Each local authority then submits project details and supporting statements. So if you're proud of one of your jobs don't wait - contact your LABC now!
