

Royal Borough Windsor & Maidenhead

Gender pay gap

March 2022

“Creating a sustainable borough of innovation and opportunity”

Our vision is underpinned by three key objectives:

Thriving communities
Inspiring places
A council trusted to deliver its promises

Our Values:

Empowered to improve
One team and vision
Respect and openness
Invest in strong foundations

CONTENTS

- 1 Introduction
- 2 Gender pay gap Indicators
- 3 Action to reduce the gender pay gap

Frequently used acronyms

RBWM – Royal Borough of Windsor and Maidenhead

1 INTRODUCTION

- 1.1 Under the Equality Act 2010 (Specific Duties and Public Authorities) Regulations 2017, employers with 250 or more employees are required to publish statutory gender pay gap indicators every year. This is the council's third year of publication. The data is updated annually and is a snapshot of the workforce as at 31 March each year, which is always published by 30 March the following year. For the council this information excludes schools, who are required to publish their own data where their workforce exceeds 250 employees. Only Manor Green School currently meets this requirement.
- 1.2 The gender pay gap is not about equal pay for men and women. The council pays men and women on the same grade based on their job role being assessed as being of equal value. We do this via a job evaluation scheme. The gender pay gap compares the hourly pay of all men and all women in the council.
- 1.3 Reasons for the size of the gap vary between organisations, but generally across all organisations they can be accounted for on the basis that:
- Men are more highly represented in senior positions.
 - More women than men work part time and part time work tends to be more prevalent at lower levels in organisations.
 - More women than men take career breaks, which can impact on their progression or later career choices.
 - Local authorities have a wide range of services and professions, however many of the lower paid functions tend to be dominated by women e.g., administration, care, customer services etc.
- 1.4 The introduction of the gender pay gap reporting requirement aims to address these imbalances.
- 1.5 In calculating the council's gender pay gap data, we have applied the definitions and criteria set out in the regulations.

2 GENDER PAY GAP INDICATORS

- 2.1 RBWM is required to publish the following information:
- Median gender pay gap
 - Mean gender pay gap
 - Median performance pay gap
 - Mean performance pay gap
 - Proportion of males and females receiving a performance payment
 - Proportion of males and females in each pay quartile.
- 2.2 To help understand the indicators, they are described below in Table 1.

Table 1: Indicators

Indicator	Description
Median gender pay gap	The difference between the middle value of the hourly rate for men (when ordered from lowest to highest) and the middle value for women, expressed as a percentage of the median hourly rate for men.
Mean gender pay gap	The difference between the average hourly rate for men and the average for women, expressed as a percentage of the average hourly rate for men.
Median performance pay gap	The difference between the middle value of performance payment for men (when ordered from lowest to highest) and the middle value for women, expressed as a percentage of the median performance payment for men.
Mean performance pay gap	The difference between the average performance payment for men and the average for women, expressed as a percentage of the average performance payment for men.
Proportion of males and females receiving a performance payment	The percentage of men and the percentage of women who received a performance payment.
Proportion of males and females in each pay quartile	The percentage of men and women in each quartile (25%) of the pay structure. This is calculated by listing all the individual hourly rates, lowest to highest and dividing them into 4 equal groups called: upper, upper middle, lower middle and lower.

- 2.3 The council's mean and median gender pay gaps are shown in Table 2 and compared to the national and public sector figures from the ONS 2020 Annual Earnings and Hours Survey.

Table 2: RBWM mean and median gender pay gap compared to the national

Group	% gap mean 2021	% gap median 2021
The council	1.7	2.6
National - all employees 2020	14.9	15.4
Public sector 2020	14.8	18

- 2.4 This shows that the gender pay gaps at the council remains significantly below the national and public sector pay gaps. Refer to Appendix A for year-on-year comparisons,
- 2.5 Table 3 compares the council's Gender Pay Gap with other councils in Berkshire.

Table 3: Gender pay gap for Berkshire councils 2020

Council	% mean gap	% median gap
Reading	4.7	2.5
Windsor and Maidenhead	6	2.6
Slough	10	-3.1
Wokingham	15.6	17.3
Bracknell	17.8	24.1
West Berkshire	18.2	14.9

The data for 2021 will not be available until after 31 March 2022.

- 2.6 The gender pay gap for performance payments are shown in Table 4. Table 5 shows the proportion of men and women receiving performance payments. This reflects the payment of instant reward payments given for one off exceptional pieces of work, 44 payments were made in 2020/21. The scheme provides for one off payments of up to £1,000, although £100 - £500 are more common. For 2021, the mean and median payment for women was significantly higher for women.

Table 4: Performance payments gender pay gap

Indicator	Percentage gap - actual payments 2021
The mean performance gender pay gap	-21
The median performance gender pay gap	-24.4

Table 5: Proportion of men and women receiving a performance payment

Indicator	Female 2021	Male 2021
The proportion of males and females receiving a performance payment	14.4%	4.2%

Table 6 sets out the proportion of men and women in each pay quartile.

Table 6: Pay quartiles

Indicator		Female 2021	Male 2021
The proportion of males and females in each quartile pay band	Quartile		
	Upper	60	40
	Upper middle	57	43
	Lower middle	62	38
	Lower	66	34

Reasons for the changes from 2020 to 2021

- 2.7 The mean percentage pay gap has reduced from 6% to 1.7%, this is mostly likely due to an increase in the representation of women in the upper middle and upper pay bands.

3 ACTION TO REDUCE THE GENDER PAY GAP

- 3.1 The council already has in place policies that may encourage more women to join and remain with the council at all levels. These policies work equally well for all council staff. These include:
- A wide range of flexible working patterns including term time only and home working.
 - Family friendly benefits such as buying additional leave.
- 3.2 The council's current gender pay gap is significantly less than the national figure, however there is more that could be done to improve the opportunities for women at the council. The following actions were identified:
- Review the pay profile within the pay grades to identify any pay inequalities.
 - Undertake unconscious bias training for managers to raise awareness of gender issues.
 - Promote family friendly policies and evaluate the take up of those policies. Determine what action should be taken, if any, to further encourage the take up of these policies.
 - Women and particularly those working part time, will be encouraged to participate in any management development programme.
- 3.3 We have undertaken the following:
- Reviewed the gender pay gap within pay grades, which may be considered a truer indicator of the difference in pay between men and women.
 - This identified that for six out of 13 grades, women are paid slightly more than men. Where there are pay gaps in favour of men, they are relatively small.
 - In looking at the pay gap for senior grades (Grade 10 and above), we have identified that women on average have less service with the council and are on average 5 years younger than men. This could account for the generally small differences in pay. It is however a positive message as it suggests that women are obtaining more senior roles at a younger age.

- Continued to promote the council's family friendly policies and regularly remind our employees our flexible working policies via our Wellbeing Bulletin.
- Autumn 2021 – undertook a survey of senior managers regarding the facilitation of more flexible and part time working at senior levels (Grade 10 and above).
- The council appreciates the importance of utilising apprentices and offering apprenticeships as an opportunity for current staff to develop and also for those entering employment. Currently apprenticeships are offered in a wide range of specialism including management, Human Resources and Finance. Currently 86% of those colleagues on apprenticeships are female. Part-time colleagues are encouraged to undertake apprenticeships and additional support is offered to line managers to manage this with reasonable expectations of the staff member. Currently, all those undertaking apprenticeships are working full time.
- Made Equality and Diversity and Unconscious Bias training mandatory for managers and all staff.
- We have undertaken an exercise to update our workforce data to include all the protected characteristics and will produce an updated workforce profile, which will inform HR policy development.
- In the autumn of 2020, we established an employee led Equality, Diversity and Inclusion Network and appointed an Equalities and Community Development Officer.
- In 2020, RBWM HR joined the local Integrated Care System HR Group, which co-operates on a range of common HR initiatives including equality and diversity.
- The COVID-19 pandemic resulted in the majority of council staff having to work from home. This presented a number of challenges particularly for those with caring responsibilities. Flexibility in working arrangements that met the needs of the employee and council were facilitated. In addition, we enhanced our wellbeing support for staff conscious of the pressures on all staff and carers in particular.

3.4 We will continue to:

- Monitor gender pay by grade.
- Monitor the completion of Equality and Diversity and Unconscious Bias training as part of the mandatory training required of staff.
- Promote family friendly policies and identify how we can encourage and support more flexible and part time working in more senior roles.
- Promote management development opportunities to women.
- Implement priorities and actions identified by the Equality, Diversity and Inclusion Network.
- Review flexible working practices and continue to facilitate working from home.
- Promote our wellbeing support including support for carers.
- Promote the council as an employer of choice that offers flexibility and recognises the importance of personal wellbeing to appeal to the widest range of potential employees.

Appendix A Gender Pay Gap Commentary

Table 1 compares the mean and median pay gaps since 2018 with national and public sector figures from the ONS Annual Earnings and Hours Survey

Table 1

Group	% gap mean 2018	% gap median 2018	% gap mean 2019	% gap median 2019	% gap mean 2020	% gap median 2020	% gap mean 2021	% gap median 2021
The council	7.6	9.1	5	2.6	6	2.6	1.7	2.6
National - all employees	17.2	17.8	16.2	17.3	14.9	15.4	Pending	Pending
Public sector - all employees	17.4	19	15.7	16.8	14.8	18	Pending	Pending

Table 2 compares the mean and median Gender Pay Gaps for performance payments (Instant Rewards) since 2018

Table 2

Indicator	Percentage gap - actual payments 2018	Percentage gap - actual payments 2019	Percentage gap – actual payments 2020	Percentage gap – actual payments 2021
The mean performance payment gender pay gap	-12.45	31.2	10	-21
The median performance payment gender pay gap	0	50	-50	-24.4

Table 3 sets out the percentage of men and women receiving a performance payment (Instant Reward) since 2018

Table 3

Indicator	Female 2018	Male 2018	Female 2019	Male 2019	Female 2020	Male 2020	Female 2021	Male 2021
The % of males and females receiving a performance payment	5.79	9.39	5.3	5.7	1.8	1.4	14.4	4.2

Table 4 sets out the proportion of males and females in each pay quartile

Table 4

Indicator	Quartile	Female 2018	Male 2018	Female 2019	Male 2019	Female 2020	Male 2020	Female 2021	Male 2021
The % of males and females in each quartile pay band	Upper	60.14	39.86	63.4	36.6	56.6	43.4	60	40
	Upper middle	60.14	39.86	59.5	40.5	55.9	44.1	57	43
	Lower middle	68.24	31.76	66.4	33.6	64.7	35.3	62	38
	Lower	67.79	32.21	67.1	32.9	65.9	34.1	66	34
